Dear Mr. Gamon:

SUBJECT: CHANGES TO B&R-002A

We have reviewed your letter of March 24, 1980 concerning changes to the Brown & Root (B&R) Topical Report B&R-002A, Revision 3, "Quality Assurance Program for Nuclear Power Plants," September 3, 1977. We agree with your assessment that the changes are nonsubstantial, and we find the changes acceptable. We note your commitment to incorporate these changes into the topical report when you submit the next major revision.

Sincerely,

A handwritten signature in cursive script that reads "Walter P. Haass".
