

Federal Register Notice

NUCLEAR REGULATORY COMMISSION
ADVISORY COMMITTEE ON REACTOR SAFEGUARDS
SUBCOMMITTEE ON REACTOR FUEL

Addition

It may be necessary for the ACRS Subcommittee on Reactor Fuel to close portions of its meeting on April 29, 1980 for the following reason:

The ACRS is required by Section 5 of the 1978 NRC Authorization Act to review the NRC research program and budget and to report the results of the review to Congress. In order to perform this review, the ACRS must be able to engage in frank discussions with members of the NRC Staff and such discussions would not be possible if held in public sessions. I have determined, therefore, in accordance with Subsection 10(d) of the Federal Advisory Committee Act (Public Law 92-463), that, should such sessions be required, it is necessary to close portions of this meeting to prevent frustration of the above stated aspect of the ACRS' statutory responsibilities. See 5 U.S.C. 552b(c)(9)(B).

All other items remain the same as announced in a notice published April 14, (45 FR 25195).
