Gentlemen:

Enclosed is Quality Assurance Program Approval for Radioactive Material
Packages No. 0180, Revision No. 0.

Please note the conditions included in the approval.

Your letter of April 8, 1980 refers to "two previous letters to Mr. Jack Spraul."
He has assured me that he has seen nothing from Hartford Steam Boiler Inspection
and Insurance since mid-1978. We regret any misunderstandings that may have
resulted from this.

Sincerely,

Charles E. MacDonald, Chief

Division of Fuel Cycle and Material
Safety, NMSS
