Dear Sir:

In regard to updating 10 CFR Part 20, "Standards for Protection Against Radiation" and since our company works more with radiography and well logging licensees, I feel it is very important that any updating be presented in terms understandable to the radiography and well logging industry; also any rules that do not apply to all licensees should be so worded so that there is not any doubt as to who must comply.

Very truly yours,

Frank A. Malek, Jr.
Radiation Safety Officer
