FREEDOM OF INFORMATION
ACT REQUEST

*FOIA-80-255
Rec'd 5-12-80*

Freedom of Information Coordinator
United States Nuclear Regulatory Commission
Office of Public Affairs
Washington, DC 20555

Dear Gentleperson:

This is a request under the Freedom of Information Act as amended (5 USC § 552).

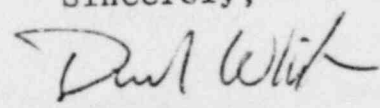

I write to request copies of the following: WASH-740, WASH-1250, NUREG-0660 (NRC Action Plans Developed as a Result of the TMI-2 Accident, Draft 3), and NUREG-0460 (Report on NRC Staff Report on Anticipated Transients Without SCRAM; all four volumes).

If, for any reason, you feel that this request is directed to the wrong office or agency, we ask that you exercise your authority under the Act to forward this letter to the proper official and immediately notify us that you have done so.

As you know, the amended Act permits you to reduce or waive the fees if you find that it "is in the public interest because furnishing the information can be considered as primarily benefitting the public." Since our organization is a non-profit organization which is devoted to public education and any materials received in response to this request would be used for that purpose, I believe that this request plainly fits that category and ask you to waive any fees. If it is your decision not to waive fees, I ask that your response include your reasons for that determination.

If you have any questions regarding this request, please telephone me at the above number. As provided for in the amended Act, I will expect to receive a reply from you postmarked within ten (10) working days from your receipt of this letter. If for any reason the requested materials are not mailed within ten working days as well, I will appreciate your letter advising me as to the date when I should expect to receive the requested materials.

Sincerely,

David White
Co-Director
