Docket No. 40-1341

Dear Mr. Scarano:

Enclosed is a question response which was not provided in Supplement 1 to the Edgemont Uranium Mill Decommissioning Plan Environmental Report (ER) sent to you by my January 28, 1980, letter. Included also is a revision to one other question and changes to some of the attachments to the supplement.

Enclosure 1 is a response to the question entitled Section 4.3 and Section 4.5, General on page 1-8 of ER Supplement 1. As a result of this response, the existing Attachment 2 of ER Supplement 1 is no longer applicable. Therefore, Attachment 2 of ER Supplement 1 is to be replaced by Attachments 2A-2D (see Enclosure 2) with the exception of the soils map for site 8 which is still applicable for new Attachment 2A.

Enclosure 3 is a revised response to the question entitled Section 4.5, General on page 1-13 of ER Supplement 1.

Enclosure 4 contains a revised page A.3-1, and a revised vegetation association map for the preferred disposal site for Attachment 3 of ER Supplement 1.

Very truly yours,

TENNESSEE VALLEY AUTHORITY
