From Public Disclosure Pursuant to 10 CFR §2.390**

1. My name is Walter D. Nelson and I currently serve as the Safety, Health, Environment, and Quality (SHEQ) Coordinator at Cameco Resources, Crow Butte Operation (CBO). I am authorized to execute this affidavit on behalf of Cameco and may bind Cameco to the statements contained herein.
2. This affidavit is attached to an Excel file that has been developed by CBO to assist in the calculation of the annual surety estimate. A hard copy of each sheet contained in the file was submitted to NRC in a letter dated September 26, 2019. NRC has requested access to the Excel file in its electronic form. This file contains formulas and programming that are the result of CBO work product, and providing this tool to the public would provide CBO's competitors an economic advantage.
3. All of the information contained in the Excel file is already available to the public through ADAMS. CBO is only requesting that the unique tool that was developed at CBO's expense for simplifying the process of calculating the annual surety estimate be protected from public disclosure. While the information contained within the file is not proprietary, the work done to develop the program is proprietary.
