May 9, 1980

Mr Herbert Grossman Chairman
Atomic Safety and Licensing Board
Nuclear Regulatory Commission

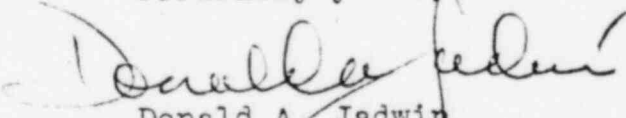

Dear Mr Grossman:

I am one of the persons that made a statement to you at the Nuclear Regulatory Commission hearing in Petoskey Mich on December 5, 1979.

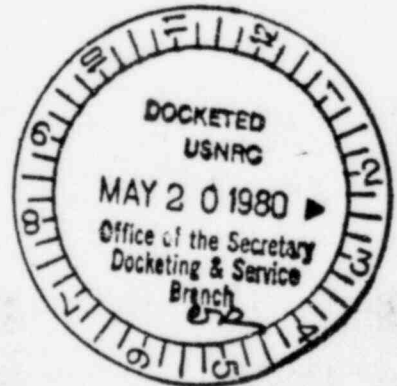

How are things progressing regarding the matter of Consumers Power's request for additional storage of spent fuel at Big Rock Point Nuclear plant?

In the 4/24/80 Petoskey News, an article appeared with the heading "NRC approves moving of N-waste with guards." Does this mean that Consumers Power can now move their spent nuclear fuel from the Big Rock Nuclear Plant to some nuclear waste disposal dump? If this is so, will there be any need for them to request additional storage of nuclear spent fuel at the Big Rock site?

Cordially yours,

Donald A. Jadwin
