

SEP 25 1979

Mr. Steve Behling
EG&G Idaho, Inc.
P.O. Box 1625
Idaho Falls, Idaho 83401

Dear Mr. Behling:

Subject: Presentation of Papers Regarding TMI at November Information Meeting

The NRC Special Inquiry Group has asked us to refrain from releasing information on the sensitivity calculations performed for their investigation until they have completed the work. Consequently, we request that you not present any of that information in the paper you prepare for the November Information Meeting. You may present any other calculations you have performed, and you may also present any base case (actual TMI transient) calculations you have performed, including those done in support of the Inquiry Group.

Sincerely,

Original Signed By:

L. S. Tong, Assistant Director
for Water Reactor Safety Research
Division of Reactor Safety Research
