

May 19, 1980

Docket No. 50-133

Mrs. Helen Miller
Secretary-Treasurer
Veterans Memorial Building
House Committee
3438 Summer Street
Eureka, California 95501

Dear Mrs. Miller:

This letter will confirm our telephone conversation last week concerning my request for space for a public hearing in Eureka.

I understand that you have reserved the Veterans Memorial Building at 11th and H Streets for a one-to-two day prehearing conference to be convened by a three-member Atomic Safety and Licensing Board at 9:30 a.m. on June 3, 1980. The prehearing, which is in the matter of Pacific Gas and Electric Company's Humboldt Bay nuclear facility, may be attended by approximately 50 persons.

I am attaching a diagram for your information which indicates the usual arrangements for a conference of this type. Should you incur any costs in setting up the hall, please let me know immediately. My telephone number is 202/634-1437; please call collect.

As I mentioned, we will be asking a local firm to assist us with a public address system; I will give you as the contact.

Dr. Robert Lazo, chairman of the licensing board, is most appreciative of your assistance. It was a pleasure talking to you last week.

Sincerely,

Chase R. Stephens, Chief
Docketing and Service Branch
