

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

MAY 20 1980

FCTC:JEJ
71-9039

Those on attached list

Gentlemen:

Enclosed is Certificate of Compliance No. 9039, Revision No. 4, for the Model No. 715 shipping package. This certificate supersedes, in its entirety, Certificate of Compliance No. 9039, Revision No. 3, dated December 1, 1977.

Changes made to the enclosed certificate are indicated by vertical lines in the margin.

Those on attached list have been registered as users of this package under the general license provisions of 10 CFR §71.12(b) or 49 CFR §173.393a.

This approval constitutes authority to use this package for shipment of radioactive material and for the package to be shipped in accordance with the provisions of 49 CFR §173.393a.

Please note that this approval has been renewed only until August 31, 1980. In order to renew the approval beyond this date, we need a set of consolidated drawings for the package which shows only the significant safety features (e.g., dimensions, materials of construction, welds, closures, seals, valves). We will need sufficient copies of both the original consolidated application dated April 11, 1980 and the new consolidated drawings to make distribution to all secondary users. There are currently fifty four (54) registered secondary users. We will also require eight (8) copies of the consolidated drawings to accompany the consolidated application dated April 11, 1980 which you have previously submitted.

Sincerely,

Charles E. MacDonald
Charles E. MacDonald, Chief
Transportation Certification Branch
Division of Fuel Cycle and
Material Safety

Enclosure: As stated
