Dear Mr. O'Reilly:

I.E. BULLETIN 80-08  
EXAMINATION OF CONTAINMENT LINER PENETRATION WELDS

As you know, Virginia Electric and Power Company is performing a feasibility study of North Anna Units 3 and 4. For the duration of this study, we have curtailed our activities, most notably in nuclear related areas. Therefore, we have suspended our review of the subject Bulletin. We will resume our review of this Bulletin if the study indicates continuing with North Anna Units 3 and 4 as nuclear units.

If there are any questions, please contact us.

Very truly yours,

  
Sam C. Brown, Jr.  
Senior Vice President - Power Station  
Engineering and Construction
