WASHINGTON, D. C. 20555

DCS

MAY 7 1980

MEMORANDUM FOR: WM-23 File

FROM: Hubert J. Miller, Section Leader
New Facilities Section
Uranium Recovery Licensing Branch

SUBJECT: COMPLETION OF URANIUM RECOVERY LICENSING BRANCH
REVIEW OF PROPOSED MARTIN-TROST ORE UPGRADER
PROJECT AT KERN COUNTY, CALIFORNIA

WMUR performed a technical review of the subject proposed Martin-Trost uranium ore upgrader project in California at the request of the State (letter K. Fess to H. Miller of August 24, 1980).

This memo documents completion of this technical assistance review case. The WMUR staff reviewed the proposed application of Martin-Trost Associates and issued a letter report identifying areas needing additional information (letter from H. Miller to K. Fess of October 16, 1979). WMUR involvement was to have continued but conversations between K. Fess and G. Wu on May 2, 1980, indicated that the applicant has postponed indefinitely the project. This has resulted in termination of WMUR efforts on the case. The case is considered complete as of May 1980.

A handwritten signature in cursive script, appearing to read "H. Miller".
