MEMORANDUM FOR: Ronald D. Hauber, Senior Foreign
Relations Officer
Office of International Programs

FROM: Faust Rosa, Chief
Power Systems Branch
Division of Systems Safety, NRR

SUBJECT: TECHNICAL ASSISTANCE ASSIGNMENT (FAUST ROSA)
TO MEXICO, IAEA PROJECT MEX/4G/30

Pursuant to our recent telephone conversation, I am enclosing the IAEA letter dated March 13, 1980 which requests that I specify the date and length of time that I can be available for the subject assignment. You will recall that this assignment was originally scheduled for the summer of 1977, and again in 1978, and was deferred in both instances at the request of the Mexican authorities.

Please advise the IAEA that I will not be available for this assignment for the foreseeable future. The reasons for this are both personal and work related; the latter being my perception that the future efficiency of my branch will depend to a large extent on my direct involvement in effecting the changes in workload and scope of responsibility resulting from the recently initiated ONRR reorganization.
