Ref: a) Letter NS-TMA-2243
from W (T.M. Anderson)
to NRC (W.P. Haass)
dated 5/2/80

Subject: Storage of Westinghouse Records

Dear Mr. Haass:

This letter identifies the early completion of two planned action items identified in the Attachment to Reference (a). Completion status of these two actions, keyed to Reference (a), is as follows:

- b) The south wall of C Room was replaced May 15, 1980 with one with a needed, sealed expansion joint.
- c) The sealed expansion joints in three other walls were removed and replaced to assure adequate closure effective May 25, 1980.

With this finalization of these additional fire-resistive measures, we believe the Westinghouse Central Records Center at Boyers, Pennsylvania satisfies single site storage requirements. If you have any questions in this matter please contact Mr. E. J. Hampton at (412) 273-6211.

Very truly yours,

T. M. Anderson
