Gentlemen:

Enclosed is Certificate of Compliance No. 9007, Revision No. 2, for the Model No. 520 shipping package. This certificate supersedes, in its entirety, Certificate of Compliance No. 9007, Revision No. 1, dated March 29, 1977.

Changes made to the enclosed certificate are indicated by vertical lines in the margin.

Those on the attached list have been registered as users of this package under the general license provisions of 10 CFR §71.12(b) or 49 CFR §173.393a.

This approval constitutes authority to use this package for shipment of radioactive material and for the package to be shipped in accordance with the provisions of 49 CFR §173.393a.

Please note that this approval has been renewed only until August 31, 1980. In order to renew the approval beyond this date, we need eight (8) copies of a consolidated application. However, the drawings submitted for the package with your March 24, 1980 letter are sufficient for our purposes. We will need additional copies of both the consolidated application and drawings to make distribution to all secondary users. There are currently four (4) registered secondary users.

Sincerely,

A handwritten signature in cursive script, appearing to read "R H Oligarden".
