ATTN: Commanding Officer
U.S.S. Canopus (AS-34)
FPC Miami, FL 34087

Gentlemen:

Enclosed is Quality Assurance Program Approval for Radioactive Material Packages No. 0388, Revision No. 0.

Please note the conditions included in the approval. In particular, delete enclosure 2 and Appendixes A & B. While there must be supporting written procedures to implement the QA program, these procedures, as well as others you may develop to implement the program, should not be submitted as part of the QA program plan. Also, radioactive material shipping packages designed or manufactured after January 1, 1979 must be designed and manufactured under a QA program approved by the Nuclear Regulatory Commission.

Sincerely,

Charles E. MacDonald, Chief
Transportation Certification Branch
Division of Fuel Cycle and Material
Safety, NMSS
