June 6, 1980

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

This is in reference to the "Power Plant Staffing"  
Report published in the Federal Register on April 24, 1980 that  
indicated written comments are to be submitted to the NRC on or  
before June 9, 1980.

This International Union represents the majority of  
the operating and maintenance employees working at Nuclear  
Reactors in the Electric Utility Industry. On May 16, 1980,  
we sent copies of the Report prepared by Basic Energy Technology  
Associates, Inc., to our local unions with jurisdiction in this  
area. As of this date, we have received numerous replies and  
are expecting additional replies in the next few weeks. In  
order that we may adequately comment on this matter, we respect-  
fully request an extension of time to comment by June 30, 1980.  
Your cooperation in this request will be sincerely appreciated.

Very truly yours,

*Charles H. Pillard*  
Charles H. Pillard  
International President
