Dear Mr. Geckler:

This letter will confirm your conversation of May 29, 1980 with Betty Jankus of my staff who requested an extension of the comment period on NURGE-0191, FEIS, LaCrosse Boiling Water Reactor from June 2, 1980 to June 17, 1980.

We have concerns about the adequacy of the discussions on the benefit/cost ratio and the radiological impacts.

We will contact you immediately should other concerns appear during our review.

Sincerely yours,
