Mr. Stephen Kent
Congressional Affairs Office
Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Mr. Kent:

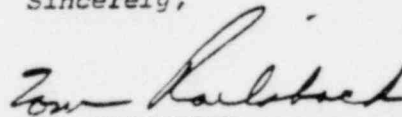

Enclosed is correspondence I have received from Mr. Fred L. Willman regarding the licensing of nuclear power plants.

As stated in the enclosed letter, Mr. Willman is concerned about large corporations buying thousands of acres of farm land to be used for nuclear power plants.

It would be greatly appreciated if you could respond to Mr. Willman's comments at your earliest possible convenience.

Thanking you for your assistance, I am

Sincerely,

TOM RAILSBACK
Member of Congress

Dear Mr. Railsback:

I am writing to see if you can help to stop the building of Nuclear Plants and stop the licensing of Nuclear Plants. Why is Illinois No. 1 in Nuclear Plants? Why should Illinois have all the wastes? I cannot see what they are going to do with all the wastes.

The large Corporations, such as Com Ed, should be stopped in buying all the farm land. There will be several farmers out of jobs with these Corporations using one man to farm thousands of acres. Com Ed does not allow livestock on their land. Where will our meat and milk come from?

Com Ed doesn't care about the buildings on the farms they purchase and don't cover them by Insurance. What will become of all our buildings in the country?

Fade out all Existing Plants.

Fred L. Willman
