RE: Portland General Electric Company, et al.
(Trojan Nuclear Plant)
Docket No. 50-344
(Control Building Proceeding)

Gentlemen:

We have reviewed the NRC Staff's letter of May 30, 1980 which proposes a "corrected" version of footnote 34 on page 134 of the Staff's proposed findings of May 19, 1980.

Licensee has no objections to the NRC Staff's clarification of how the Staff has analyzed displacements at a specific interface between the Control and Turbine Buildings for the purpose of demonstrating the adequacy of the clearance between such buildings as described in footnote 34.

Sincerely,

Maurice Axelrad
