Docket No. 40-1341

Dear Mr. Scarnano:

In my letter of March 11, 1980, maps were provided of alternative disposal site 10 for the Edgemont Uranium Mill decommissioning showing the geological and topographical features and subwatersheds which make up the drainage system within the site 10 area. As requested by Gene Traub and staff, enclosed are 9 additional copies of each map which were needed for docketing.

Very truly yours,
