Analysis

April 25, 1980

Commissioner Joseph M. Hendrie  
U.S. Nuclear Regulatory Commission  
Matomic Building  
1717 H Street, N. W.  
Washington, D. C. 20555

Dear Joe:

I enclose a copy of the Gatlinburg II Workshop Proceedings, An Acceptable Future Nuclear Energy System. The workshop, which was sponsored by the Department of Energy, brought together about forty representatives of the nuclear enterprise and of public regulatory bodies. The purpose was to examine various ideas for improving the enterprise so that nuclear fission can continue to contribute to our energy system.

I hope you will find the deliberations useful. Should you have any comments about the workshop, I hope you will forward them to me.

Sincerely,

*Alvin*
