Mr. Ira Dinitz, Indemnity Specialist  
Office of Antitrust and Indemnity  
Directorate of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Dinitz:

I have been referred to you by Mr. Richard D. Jones of American Nuclear Insurers for help in obtaining information about the Atomic Energy Act of 1954, including any a statutory law and the financial responsibility requirements of nuclear facilities; i.e., insurance requirements or amounts of self insurance permissible.

My request stems from a recent operation one of my clients has undertaken. The operation involves contract work of a non-nuclear nature, but at an operative nuclear facility. While I have been informed that the facility form of the Nuclear Energy Liability Policy affords protection to contractors, I have the concern that there could be deductible and/or self insurance areas which might leave a gap in the protection which would be available to my client from the Nuclear Energy Liability Policy.

I realize your time is very valuable and I wish to thank you for any help you can give. I would be especially appreciative of any literature or pamphlets you might be able to supply dealing with this area.

If there are any expenses involved, please let me know the amount and I will forward a check.

Yours very truly,

BAYLY, MARTIN & FAY, INC.
