

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

MAY 15 1980

MEMORANDUM FOR: R. Fraley, Executive Director  
Advisory Committee on Reactor Safeguards

FROM: Gary G. Zech, Technical Assistant  
Technical Support Branch  
Office of Nuclear Reactor Regulation

SUBJECT: NRC STAFF REPORT ON ANTICIPATED TRANSIENTS WITHOUT  
SCRAM, NUREG-0460

By letter dated April 16, 1980, the ACRS provided its comments and recommendations regarding NUREG-0460 and the staff's proposed resolution of the ATWS generic issue. For your information, the staff is now preparing a Commission paper on this subject that will take into consideration the ACRS recommendations as well as those received from industry representatives.
