Mr. James R. Shea
Director of International Programs
United States Nuclear Regulatory Commission
Room 6714 - MNBB
Bethesda, Maryland

Dear Mr. Shea:

I refer to the letter from your office dated March 14, 1980, requesting Executive Branch views as to whether issuance of an export license in accordance with the application hereinafter described would be inimical to the common defense and security of the United States and whether the proposed export meets the applicable criteria in the Atomic Energy Act, as amended by the Nuclear Non-Proliferation Act of 1978:

NRC No. XCOM0376 -- Application by Byron Jackson Pump Division for authorization to export to India various components and parts specially designed and prepared for primary coolant and other pumps for the Tarapur nuclear power reactors. Total value of these parts and components is approximately \$20,000.

It is the judgment of the Executive Branch that the export contemplated will not be inimical to the common defense and security of the United States, and that the export is consistent with the provisions of the Atomic Energy Act of 1954, as amended by the Nuclear Non-Proliferation Act of 1978.

Moreover, as stated in my letter to you dated March 27, 1979, it is the view of the Executive Branch that the generic assurances provided by the Embassy of India by letter dated March 23, 1979 meet the criteria under Section 109 b. for exports of reactor components by confirming that the following provisions apply to such exports: 1) IAEA safeguards will be applied to the special nuclear material produced through the use of supplied equipment

Copy to FDR and ACC 5-13-80.

or material for the Tarapur Atomic Power Station (TAPS);
2) the special nuclear material or equipment supplied for
use in TAPS or produced through the use of such material
or equipment will be devoted exclusively to the needs of
TAPS (and therefore not utilized for the production or
research and development of any nuclear explosive device);
and 3) no equipment, material or device supplied by the
U.S. for use at the TAPS will be transferred to unautho-
rized persons or beyond the jurisdiction of the Government
of India.

On the basis of the foregoing and the considerations
set forth in my letters and memorandum of May 7, 1980, re-
garding export cases Nos. XSNM01379 and XSNM01569, the
Executive Branch recommends that the license be issued.

Sincerely,

Louis V. Nosenzo
Deputy Assistant Secretary
