Regional Director

RE: WM. H. ZIMMER NUCLEAR POWER STATION - UNIT 1
IE BULLETIN 80-02, DOCKET NO. 50-358
W.O. 57300, JOB E-5590, FILE # 957-3R

Gentlemen:

This is in response to IE Bulletin 80-02 concerning the presence of serious deficiencies in the Quality Assurance Program of the Marvin Engineering Company of Inglewood, California as a manufacturer of GE-BWR internal feedwater spargers and thermal sleeves.

We have contacted the General Electric Company regarding the question of whether or not any NSSS equipment was supplied to the WM. H. ZIMMER PROJECT by the Marvin Engineering Company. Their response is that the Zimmer feedwater spargers and thermal sleeves were manufactured by General Electric C&I Manufacturing in San Jose, and that Marvin Engineering has not supplied any Zimmer NSSS hardware.

Since no equipment from the Marvin Engineering Company was supplied to Zimmer under the NSSS Contract, nor does the Cincinnati Gas & Electric Company have any purchase orders with the Marvin Engineering Company, we trust that this will complete our responsibility in responding to IE Bulletin 80-02.

Very truly yours,
THE CINCINNATI GAS & ELECTRIC COMPANY

E.A. BORGMANN, SR. VICE PRESIDENT
