Mr. Marvin R. Peterson  
U. S. Nuclear Regulatory Commission  
Office of International Programs  
Washington, D. C. 20555

Dear Mr. Peterson:

Subject: NRC Export License XSNM-887

It is requested that an amendment to the subject license be issued for the following reasons:

1. Increase the quantity of material for export from 3,992 kilograms of uranium-235 contained in 150,091 kilograms of uranium to now read 4,182 kilograms of uranium-235 contained in 158,012 kilograms of uranium.
2. Extend the expiration date of this license from July 1, 1981 to now read December 31, 1981.

additional  
3,921 Kgs U  
and  
190 Kgs U-233  
3.15%

The reasons for this request are for the purpose of exporting additional fuel assemblies that may be required to replace damaged fuel assemblies and the core loading date for the Ringhals IV plant has been rescheduled.

Please contact me should you have any questions relating to this request.

Very truly yours,

*C. G. Dahlstrom*
