Gentlemen:

We received your letter of May 22, 1980, and check for \$3,500 for an amendment to License SUB-1010 to permit disposal of raffinate sludge in a below grade pit.

Your request has been classified by the Licensing staff as a major amendment to the license. Therefore, a major safety and environmental amendment fee of \$20,800 is required, as specified in fee Category 2C of Section 170.31 of Part 170, copy enclosed. Payment of the additional \$17,300 should be made to the U.S. Nuclear Regulatory Commission and mailed to my attention. When submitting the fee, please refer to CONTROL NUMBER 16442.

Please note Footnotes 1(d) and 4 of Section 170.31, which provide that upon completion of the licensing review, the Commission will review its expenditures for professional manpower and appropriate support services; recompute the amendment fee, and, if necessary, refund any overcharges.

If you have any questions, please contact us.

Sincerely,
