MEMORANDUM FOR THE FILE:

SUBJECT: PROPOSED EXPORT OF DEPLETED URANIUM TO CANADA (XU08500)

The applicant has requested expeditious processing of this license request to export 500 kilograms of depleted uranium. This relatively small quantity of material will be used for a non-nuclear application and, therefore, does not have to be exported pursuant to an agreement for cooperation.

Due to the urgent requirement of this material by the customer, the license was issued without the normal 15-day waiting period in order for the material to be shipped before June 9, 1980.

A handwritten signature in black ink, appearing to read "M. R. Peterson".

Marvin R. Peterson, Acting Assistant
Director
Export/Import and International
Safeguards
Office of International Programs
