Attn: Elaine Hemby, MNBB8215

Dear Elaine:

Enclosed is our application for license to export per our conversation of today. Please look over and determine as to a general application or specific, but as I said this will definitely be a continuation of our previous license SUE-8360.

I would appreciate a quick response, as T.E.M. is now awaiting a shipment of 200 lbs. from us. Also, I'm sure we are shipping them more in the future.

Thank you in advance for your cooperation.

Sincerely,

Deborah A. Gomer  
Extension 290

Enclosure

P.S. If possible, could you forward blank applications for our future use, to me at the address below.
