MOTION FOR AN EXTENSION OF
TIME TO MAKE COMMENTS ON
THE SCOPE OF THE PROPOSED
ENVIRONMENTAL IMPACT

Comes now the intervenor-to-be Randy Aronov and, on his own behalf and on behalf of other interested parties moves the U.S. Nuclear Regulatory Control Commission to grant a 2 month extension of time in which to make comments on the scope of the proposed environmental impact in the above-captioned application. As grounds therefore, the intervenor-to-be shown unto the Commission the following:

1. At the scoping meeting of Thursday night, March 27, 1980 in Prattville, Alabama it was stated by W.T. Crow of the U.S. Nuclear Regulatory Commission, Division of Fuel Cycle and Material Safety, 396-ss, Washington, D.C. that the proposed April 3 and April 7, 1980 deadlines were incorrect and that comments could actually be made up until the time the licensing application is completed. Such a comment created confusion on the part of many people attending the meeting.

WHEREFORE, premises considered, the intervenor-to-be, Randy Aronov, prays that the U.S. Nuclear Regulatory Commission will grant him and other interested parties a 2 month extension of time in which to make comments on the scope of the proposed environmental impact statement in the above-captioned application.
