This refers to the inspection conducted by Messrs. K. R. Ridgway, W. L. Forney and M. W. Branch of this office on May 5-9, 1980, of activities at La Crosse Boiling Water Reactor authorized by NRC Operating License No. DPR-45 and to the discussion of our findings with Mr. Shimshak and members of the staff at the conclusion of the inspection.

The inspection showed that action had been taken to correct the identified noncompliance and to prevent recurrence. Consequently, no reply to this noncompliance is required and we have no further questions regarding this matter at this time.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter, the enclosures, and your response to this letter will be placed in the NRC's Public Document Room, except as follows. If the enclosures contain information that you or your contractors believe to be proprietary, you must apply in writing to this office, within twenty days of your receipt of this letter, to withhold such information from public disclosure. The application must include a full statement of the reasons for which the information is considered proprietary, and should be prepared so that proprietary information identified in the application is contained in an enclosure to the application.
