Mr. Boyce H. Grier, Director  
U.S. Nuclear Regulatory Commission  
631 Park Avenue  
King of Prussia, PA. 19406

Dear Mr. Grier:

This letter is with respect to your April 30 form letter concerning "Reports to the Nuclear Regulatory Commission".

We obtained a NRC license (06-17193-02) on speculation of purchasing a certain nuclear device which we decided not to buy. The NRC was notified of this decision (see attached letter).

What procedure do we have to implement in order to withdraw the license? Would you send me the appropriate forms and instructions so we will no longer be listed in your active file.

Sincerely,

THE UPJOHN COMPANY  
Fine Chemical Division

Dennis K. Chesney, PhD, Head  
Analytical Chemistry & Quality Control
