Attn: D. J. Sreniawski, Chief
Nuclear Materials Safety

Dear Mr. Sreniawski:

This letter is in reply to your letter dated September 26, 1989, in reference to a concern around our calibration frequency on our survey meter. Please be assured that it was an oversight and the meter is currently on its way back to Eberline in West Columbia, South Carolina, for calibration. I will put in place a system that will ensure the meter is calibrated every 6 months, per license description. Our license number is 34-16013-01.

If you have any questions or concerns, feel free to call me at (419) 226-5500.

Sincerely,

Patrick T. Heyneman
