Re: Below Regulatory Concern Petition
Washington, DC 20555

Dear Sir:

The Board of Selectmen for the Town of Rollinsford, New Hampshire has adopted a resolution to oppose any regulations by the EPA-NRC to detoxify radioactive wastes as below regulatory concern.

The issue is of special concern to any municipality coping with the complexities of operating a safe landfill.

We are concerned for the environment that we hand down to our children; that it be safe and free from as much chemical pollution as possible. Your resolution to declassify certain waste materials is a threat to the health and well being of every American.

Sincerely,
Rollinsford Board of Selectmen
