RE: Below Regulatory Concern Petition

Gentlemen:

The Trustees of Painesville Township at their regular meeting held October 26, 1989, determined your agency should be notified that the Trustees favor any measures which will prohibit the acceptance of radioactive waste deregulated or otherwise at any solid, liquid or hazardous waste facilities either within the County of Lake or within Painesville Township, and

The Trustees further call for the U.S. Congress to rescind Section 10 of the 1985 Low-Level Radioactive Waste Policy Amendments (P.L. 99-240) which requires the Nuclear Regulatory Commission to set BRC standards, and

The Trustees further urge the U.S. NRC to halt all activities that will result in deregulating radioactive waste and materials (BRC).

For the Board of Painesville Township Trustees.

Ralph M. Harlan
RALPH M. HARLAN
Painesville Township Clerk.
