Docket #PRM-35-9  
Washington, D.C. 20555

Dear Mr. Secretary:

I wish to express my support for the Petition for Rulemaking filed by the American College of Nuclear Medicine Physicians and the Society of Nuclear Medicine in September. A rule change to 10CFR35 which would allow physicians to prescribe radio-pharmaceuticals and for pharmacists to prepare and dispense in accordance with existing FDA regulations and professional practice standards is in order.
