Dear Mr Secretary:

I strongly urge the NRC to adopt the AENP/  
SNM petition for Rulemaking. I am a  
practicing nuclear medicine physician at  
Martin Luther King Hospital in Los Angeles.  
If for diagnostic services, I am forced to  
strictly follow the manufacturer's instructions,  
I will be unable to do my cardiac gated  
blood pool studies in an efficacious  
manner and will be unable to continue  
other INID work. These restrictions on  
my ability to care for my patients would  
be injurious to care of these patients.

I hope that you will adopt this  
Petition for Rulemaking as soon as  
possible.

Sincerely  
Gonzalez
