Proposed Revisions to Sargent & Lundy (S&L)  
Topical Report SL-TR-1A, (QA Program) Revision 7  
NOR-098, NOR-102 and NOR-100

U. S. Nuclear Regulatory Commission  
Document Control Desk  
Washington, DC 20555

Gentlemen:

Enclosed please find three changes to our Topical Report (QA Program) that we are submitting for your information, in accordance with 10CFR50.55(f)(3), as directed by a letter from Mr. S. H. Weiss of the NRC. The letter is included in a copy of the current accepted revision of the Topical Report also enclosed.

The changes are presented as Notifications of Revision (NORs) 098, 102, and 100 to the Topical Report. Manual holders are required to insert the NORs into their (loose-leaf) copies of the report, as directed in the NOR texts, and the NORs become effective on the date shown, October 16, 1989. The NORs will be incorporated into the body of the report on its next revision.

None of the changes constitutes a reduction in program commitments accepted by the NRC. NOR-098 consists of changes to Figure 01.01-1, "Sargent & Lundy Organization Chart" and to Figure 01.01-2, "Typical Project Organization Chart," both part of Section 01.00 of the Topical Report. The object of these changes is to take cognizance of recent changes in S&L's organization and position titles and in the Topical Report. In compliance with page 01-1 of the Topical Report, lines 20-23, the organization chart now shows only elements of S&L's organization that may be involved in quality related activities.

Page 2

NOR-102 consists of a change to Figure 01.02-1 of the Topical Report, "Quality Assurance Division" and of a corresponding change to page 01-6 to show that the Project Coordination and Training Sections of the Quality Assurance Division have been combined into a new Project Coordination and Training Section.

The purpose of NOR-100 to Section 18.00 of the Topical Report is to allow reasonable postponements of audits when an audit cannot be implemented on the scheduled date because of special circumstances. Reasons for postponement may include unavailability of auditor(s) or auditee(s) owing to conditions beyond their control, unexpected suspension of project activity to be audited, etc.

We would appreciate your statement of acceptance or comment at your earliest convenience. When it is issued, we will send you a copy of the next revision of the Topical Report incorporating the NORs.

Very truly yours,

H. S. Taylor  
Head, Quality  
Assurance Division
