

Mr. Gregory J. Mann, President  
 M.I.T. International, Inc.  
 800 Market Street, Suite 100  
 Houston, TX 77029

NOV 8 1989

Dear Mr. Mann:

I am responding to your letter dated October 9, 1989 to Frank Ingram in which you request the procedures for submitting a product topical report. The NRC does not endorse commercial products. We review product applicability when a licensee proposes to use a product for a specific regulatory application. Therefore, if you wish to use your product for nuclear power plant application, you must submit it to a licensee for a nuclear power plant or a nuclear utility representative. A Roster of Utilities is enclosed for your use. Please contact Hazel Smith on (301) 492-1287 if additional information is needed.

Sincerely,

Original signed by  
 John T. Larkins, Chief  
 Planning, Program, and  
 Management Support Branch  
 Program Management, Policy  
 Development and Analysis Staff  
 Office of Nuclear Reactor Regulation

Enclosure:  
 Roster of Utilities
