Attn: Ms. Beth Kolastyk

Re: Application for License to Export Natural UF6
for the Takahama Unit, No.3

Dear Ms. Kolastyk,

Please find enclosed our application in triplicate for license to export natural UF6. This material will be enriched by Power Reactor and Nuclear Fuel Development Corporation (PNC), fabricated into fuel assemblies and ultimately loaded into Takahama Plant No.3 owned by The Kansai Electric Power Co., Inc.

The country of origin of the uranium is Australia.

The relevant natural UF6 will be delivered at Allied-Signal, Inc., Metropolis Works in Metropolis, Illinois. After being exported to Japan, it will be enriched by PNC, converted to UO2 powder, pelletized and fabricated into fuel assemblies by Mitsubishi Nuclear Co., Ltd. or Nuclear Fuel Industries, Ltd.

As to the validity of the export license, we wish to have a two year period from the date of issuance.

Thank you for your attention to the above and should you have any questions, please call me at (212) 605-2750.

Sincerely,

MITSUBISHI INTERNATIONAL CORP.
