Docket No. 40-8829
License No. SUA-1441

Ferret Exploration Company
of Nebraska, Inc.
1800 Glenarm Place, Suite 300
Denver, Colorado 80202

Gentlemen:

This refers to the unannounced radiation safety inspection conducted by Mr. G. R. Konwinski of this office on September 11 and 12, 1989, of the activities authorized by NRC Source Material License SUA-1441 and to the discussion of the findings held by the inspector with members of your staff at the conclusion of the inspection. The enclosed NRC Inspection Report 40-8829/89-01 documents this inspection.

The inspection was an examination of the activities conducted under the license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of the license. The inspection consisted of selective examinations of procedures and representative records, interviews of personnel and observations by the inspector.

No apparent violations or deviations were identified during this inspection.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosed inspection report will be placed in NRC's Public Document Room and the local Public Document Room.

Should you have any questions concerning this letter, we will be pleased to discuss them with you.

Sincerely,

Ramon E. Hall
Director
