Docket No. 50-312  
Rancho Seco Nuclear Generating Station  
License No. DPR-54  
**IMPROVED TECHNICAL SPECIFICATIONS**

Attention: George Knighton

Reference: SMUD to NRC letter dated November 8, 1988, Improved Technical Specifications

In the referenced letter, the District requested that the planned Rancho Seco Improved Technical Specification (ITS) submittal be reviewed along with the Crystal River 3 lead plant ITS submittal. Due to the closure of Rancho Seco, the District will not pursue ITS. Thus, review of the ITS for Rancho Seco by the NRC is no longer required.

Members of your staff with questions requiring additional information or clarification may contact Dave Swank at (209) 333-2935, extension 4920.

Sincerely,

Steve L. Crunk
