

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION III
799 ROOSEVELT ROAD
GLEN ELLYN, ILLINOIS 60137

30-21029

October 5, 1989

The Honorable Paul R. Soglin
Mayor of Madison
210 Martin Luther King Jr. Blvd.
Room 403
Madison, WI 53710

Dear Mayor Soglin:

SUBJECT: ISSUANCE OF NRC LICENSE TO: University of Wisconsin - Madison
317 N. Randall Avenue
Madison, WI 53715
License No. 48-09843-3A

This is to inform you that the subject organization has been issued a license by the Nuclear Regulatory Commission (NRC) for the possession of cobalt-60 sealed sources to be used for treatment of veterinary subjects and irradiation of biological materials.

This notification is in accordance with NRC policy of informing public officials when organizations located in their jurisdiction are first licensed.

Included among the Nuclear Regulatory Commission's responsibilities are the regulation of the use of radioactive materials for industrial applications, research, and in consumer products. A license is intended to provide reasonable assurance that the public health and safety is adequately protected, by prescribing specific conditions and requirements for the use of authorized radioactive sources.

We will be periodically performing unannounced inspections of this facility to insure safe use of such licensed materials. You may request copies of the inspection reports through this office.

If you have any questions, please let me know.

Sincerely,

Roland Lickus

Roland Lickus, Chief
State and Government Affairs
