

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
REGION III  
788 ROOSEVELT ROAD  
GLEN ELLYN, ILLINOIS 60137

30-31205

October 5, 1989

The Honorable Vincent Schoemehl  
Mayor of St. Louis  
City Hall, Room 200  
Market and Tucker Streets  
St. Louis, MO 63103

Dear Mayor Schoemehl:

SUBJECT: ISSUANCE OF NRC LICENSE TO: Washington University School  
of Medicine  
Box 8131  
510 S. Kings Highway  
St. Louis, MO 63110  
License No. 24-00063-13

This is to inform you that the subject organization has been issued a license by the Nuclear Regulatory Commission (NRC) for the possession of cesium-137 sealed sources to be used for irradiation of blood and blood products.

This notification is in accordance with NRC policy of informing public officials when organizations located in their jurisdiction are first licensed.

Included among the Nuclear Regulatory Commission's responsibilities are the regulation of the use of radioactive materials for industrial applications, research, and in consumer products. A license is intended to provide reasonable assurance that the public health and safety is adequately protected, by prescribing specific conditions and requirements for the use of authorized radioactive sources.

We will be periodically performing unannounced inspections of this facility to insure safe use of such licensed materials. You may request copies of the inspection reports through this office.

If you have any questions, please let me know.

Sincerely,

*Roland Lickus*  
Roland Lickus, Chief  
State and Government Affairs
