Dear Mr. Keuter:

SUBJECT: RANCHO SECO NUCLEAR GENERATING STATION - GENERIC LETTER 83-28,
ITEM 2.2 (PART 1), EQUIPMENT CLASSIFICATION (PROGRAM FOR ALL
SAFETY RELATED COMPONENTS) (TAC NO. 53709)

Generic Letter 83-28, Item 2.2.1 required the Sacramento Municipal Utility District (SMUD) to describe in considerable detail the program for classifying all safety-related components other than RTS components as safety-related on documents and in information handling systems that are used to control plant activities that may affect these components. SMUD responded to the above in submittals dated November 4, 1983, May 23, 1985, and December 3, 1986. The staff has evaluated these responses and find these responses acceptable. Our Safety Evaluation (SE) and the Technical Evaluation Report (TER) by our contractor, EG&E Idaho, Inc., are enclosed for your information. This completes Item 2.2.1 of Generic Letter 83-28 for the Rancho Seco Nuclear Generating Station.

Sincerely,

original signed by Steven Reynolds

Steven A. Reynolds, Project Manager
