SUBJECT: NEXT MEETING - CHANGE OF DATE

Due to a conflict in scheduling, we regret that we must change the date of our planned September 26th TAC meeting. This meeting has been moved to Tuesday, October 24, at 9:00 a.m. The location remains the same (the Longhouse in Wellpinit). We apologize for any inconvenience this may cause.

Staff members are currently working on the preliminary changes to the DEIS regarding the water removal option. As recommended by the TAC, spray evaporation is being put forward as the preferred alternative. The matrix detailing remaining data needs will be made available prior to the next meeting so that you may have time to review the data individually or in subcommittees. At present, the October 24 meeting agenda will include:

1. Overview of EIS changes
2. Review of remaining data
3. Report from Paul Trause re: meetings with DOE and NRC
4. Other?

If you have anything you would like to add to the agenda, or if you have any questions, please contact me at (206) 586-8947.
