License No. 48-17543-01

Gentlemen:

This refers to the routine inspection conducted by Mr. D. R. Gibbons of this office on September 13-14, 1989, of activities authorized by NRC ByProduct Material License No. 48-17543-01 and to the discussion of our findings with you and Mr. David Ricci at the conclusion of the inspection.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. The inspection consisted of a selective examination of procedures and representative records, observations, independent measurements, and interviews with personnel.

In addition to the above areas, the inspector examined actions described in your letter dated November 25, 1983, regarding apparent violations found during our October 13, 1983, inspection. We have no further questions regarding these matters.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as specified in the enclosed Notice. A written response is required.

The responses directed by this letter and the accompanying Notice are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

We will gladly discuss any questions you have concerning this inspection.

Sincerely,

D. J. Sreniawski
