Dear Administrative Judges:

Enclosed for insertion in the affidavit attached to the "NRC Response to Intervenors' Motion to Admit Contentions on September 27, 1989 Exercise," dated October 16, 1989, is a signed and notarized copy of the signature page of the "Affidavit of Edwin F. That report concludes, "No violations, deviations or unresolved items were identified. The licensee's response actions for this exercise demonstrated the ability to implement the emergency plan in a manner which would provide adequate protective measures for the health and safety of the public." The scope of the September 1989 exercise was sufficient to test the major elements of the Seabrook onsite emergency response plan. The information relied on by the intervenors does not show a deficiency in the scope of the onsite exercise and, thus does not raise a significant safety issue.

The foregoing is true and correct to the best of my knowledge and belief.
